

## *Message from the Director*

Thank you for your interest in Harvey Browne Preschool.

We believe that every child is precious, gifted and talented, and we know that when you choose our school, you have placed a great trust in us. At Harvey Browne Preschool, the entire faculty expresses genuine love and affection for every child. We teach children to show respect and kindness to each other, thereby creating a caring community of learners.

Our curriculum is developmentally appropriate, which means that it is age appropriate and individually appropriate. Our curriculum framework is aligned with the Early Childhood Standards in Kentucky and the National Academy of Early Childhood Programs, a division of the National Association for the Education of Young Children (NAEYC). We use continuous authentic assessment to document children's progress so that we can meet every child's individual needs; thus, they learn happily and confidently.

We value every child's gifts and honor their journey of learning by allowing them to progress at their own pace. We want to encourage and extend the adventure of learning and feel blessed to be part of their lives.

We believe that we share a collaborative partnership with every family in the school and work together with you to make this a positive, wonderful and exciting experience. We would love to meet you and show you our school. Please call to schedule a tour at 895.2577.

We look forward to meeting you.

Sincerely,

Barbara Bailey, Director
